Frontend : Android, Java
Backend : MYSQL
Platform : Android Studio
Semester : B.Sc(it) 6th Sem

3. Guess-My-Number

Using – HTML, CSS, JavaScript

4. Pig-Game

Using – HTML, CSS, JavaScript

EXPERIENCE ON PROJECTS

Discription:

I developed this website for book bus online at home. By using this Site user can book bus ticket at home.

The key component of Bus Ticket Booking System is

1. Book ticket
2. Cancel ticket
3. Route

Discription:

I developed this Attendance management System app for Daily Student attendance in school, colleges and institutes. It Facilitates to access the attendance information of a particular Student in a particular class. The information is sorted by the Operators, which will be provided by the teacher for a particular class. This system will also help in evaluating attendance Eligibility criteria of a student.

Discription:

I developed a simple JavaScript project that lets users play the classic "Guess My Number" game. The project is designed to showcase fundamental JavaScript concepts, providing a great starting point for beginners to explore and understand basic programming logic and interactivity on the web. [Guess-My-Number](#)

Discription:

I developed this Pig-Game Project using html, css, javascript during javascript learning. In this project i learn lots of fundamentals of javascript like how to generate random number using Math.trunc() Method, if else conditional statements, and adding event on button – onClick. [Pig-Game](#)

DECLARATION

I confirm that the information provided by me is true to the best of my knowledge and belief.
